

**ROY
MULLINS**

**A Campaign
for All**

“In his role within my administration in the GUM, Mr. Roy proved his worth as a committed and experienced micronationalist who could bring new ideas to the table. He provided ideas on the representation of those in the Asia and Pacific sector, gave his input in the staff where I asked for it, and was never afraid to give his own views on any matter. He was also able to adapt relatively quickly to any new roles or changes, and I have no doubt he would be able to fit into Chair of the CA as well.

I believe Mr. Roy is someone who can handle the position of power well, striking an efficient balance between listening to others and asserting his own will.”

- Jack Dean,

Premier of Poplar Nerva

Former Chair of the Grand Unified Micronational

“When asked about Mr. Roy, as a fellow head of state, what I see is an intelligent man, articulated, humble, determined, and eager to see his realm prosper as much as the bonds he created. He envisions a micronationalism of union, despite background, origin, and thought. A few times in my micronational career that dates back to 2009, I had the privilege of establishing a good conversation with someone so willing to build his own project while helping others do the same – both with the same energy. As head of state of Karnia-Ruthenia, I was privileged to see the Rashtradhyaksh of Vishwamitra develop the relations between our micronations while also working personally to establish not only a good contact but true cooperation between the Conference of Santiago and the Association of South Asian Micronations. Certainly, one of the greatest micronationalists of our time.”

- Oscar I,

Emperor-King of Karnia-Ruthenia,

Co-Founder of the Conference of Santiago

From Dhrubajyoti Roy:

I am Dhrubajyoti Roy, the Rashtradhyaksh of the State of Vishwamitra. I have been a delegate for my nation to the Cupertino Alliance since March 2021, and I am also serving the alliance's Deputy Minister for Asian and Oceanian Affairs since 15 April 2021. Serving the alliance to the best of my knowledge, judgment, and ability without fear, favor, or external pressure is my first and foremost priority. It is a great honor and privilege for me to participate in the election for the Chair, reposing faith in democracy and democratic ideals. I am also truly glad to choose Mr. Tyler Mullins as my running mate for the position of Lieutenant Chair.

As a full-time student of Political Science and History by profession, I have been a micronationalist for the last 14 years, associated with my primary nation of Vishwamitra, of which I have been the Co-Founder and the longest-serving leader. Since being introduced to "formal" micronationalism in 2019, I have actively participated in inter-micronational affairs. Building a strong, prosperous Asian micronational community, especially the South Asian sector, was a dream of mine. This led to the foundation of the Association of South Asian Micronations in August 2020. I have been proudly serving as its Chairman since then. Apart from the ASAM, I am associated with the Asia-Pacific Alliance as the Vice Secretary-General and the Grand Unified Micronational as its first Asia-Pacific Secretary.

Apart from organizational politics, I am very active in the politics of Snagov, serving as the nation's inaugural Prime Minister. I am also serving as Privy Councillor in Ikonian and Monmark, a member of the Global Council in Yu-Xia, Governor in Aenopia and Damariscotta, and I hold a wide range of diplomatic roles for several nations, including Karnia-Ruthenia.

Often regarded as "King of Diplomacy" for my diplomatic and mediating skills and popularity in various sectors of micronationalism, I am confident that these skills and experience of mine would help benefit the alliance if elected to office. My priorities include serving all alliance members equally and with

great affection, helping newer nations grow, and helping their leaders with valuable ideas and advice.

As we call our campaign “A Campaign for All,” I pledge that the Roy-Mullins Campaign is undoubtedly one that is beneficial for all members of the alliance.

A handwritten signature in black ink, reading "Sean P. Gallagher". The signature is written in a cursive style with a long horizontal line extending to the right.

From Tyler Mullins:

I am King Tyler Mullins of the Free Nation of New Athens. I have represented New Athens in the Cupertino Alliance since mid-2020 and have quickly grown to love this alliance and everything it stands for. I currently serve as the Minister of Homeland Security, and I receive a great deal of enjoyment from working on projects and collaborating with you all. It is my goal to continue to serve this alliance to the best of my ability. To further this goal, I am seeking election as the Lt. Chair of the Cupertino Alliance as the running mate of Chair candidate Dhrubajyoti Roy.

I am an incredibly organized person and hope to apply these skills to aiding the alliance in becoming as streamlined and organized as possible.

In October 2020, I was elected to the position of Mediator General in the League of Independent Nations, another development-based micronational organization. I was tasked with overseeing applicants and all assembly sessions, in addition to some administrative tasks. As the position had just been created, I had to start from the ground up. During my first term, I created a formal application process, legislation templates, polled delegates to determine ideal session times and days, prepared agendas, and successfully ran over a dozen sessions with perfect attendance and thorough preparation. Part of my success in running sessions is due to my four years of experience running parliamentary meetings for clubs in college, which adhered to Robert's Rules of Order. Six months later, I ran for a second term and won re-election with minimal campaigning and avid support from all member nation delegates. As a result of my organizational policies, applicants never have to ask when they will be discussed, members have easy and organized access to all legislation and session agendas, and programs can run smoothly. My experience and skills are invaluable to the Lt. Chair position, and if elected, I intend to apply them for the benefit of the Cupertino Alliance.

Cabinet Restructure

A restructure in the CA cabinet and the introduction of newer ministries is one of the foremost priorities of our alliance. In recent times, there has been an emergence of the need for several vital ministries and departments, which the Alliance lacks. Introducing newer and effective ministries and abolishing inactive and less used ministries would play a critical role in fulfilling our clear vision for the alliance.

Under the planned restructuring of the cabinet, the bulleted ministries shall be abolished, and will be combined into the following ministries for efficiency.

Ministry of Development and Inter-State Cooperation:

- Ministry of Environment and Geographical Information
- Ministry of Agreements and Developments

Ministry of Press and Promotion:

- Ministry of MicroWiki Affairs
- Ministry of Public Affairs
- Ministry of Technology

Ministry of Security:

- Ministry of Homeland Security

The following new ministries will also be created:

Ministry of Statistical Affairs

Ministry of International Cooperation

MINISTRY OF DEVELOPMENT AND INTER-STATE COOPERATION

The proposed Ministry of Development and Inter-State Cooperation shall be a formal merger of the Ministries of Environment and Geographical Information & Agreements and Developments.

The primary function and aim of the ministry shall be to promote activities, initiate cooperation between the member-nations, and oversee all programs that are formed for the member nations.

MINISTRY OF PRESS AND PROMOTION

The Ministry of Press and Promotion shall be a combination of the Ministry of Public Affairs, the Ministry of MicroWiki Affairs, and the Ministry of Technology.

The principal function of the ministry shall be to promote the Alliance on global platforms, look after and administer the CA assets, including its website, domains, and social media platforms. In addition, it shall be the role of the Minister of Press and Promotion to oversee the publications of the Capstone Tribune and regular issuing of minutes from the sessions.

MINISTRY OF SECURITY

The Ministry of Security shall be a unique blend of the Ministry of Homeland Security and the Safeguarding Officer. The new Ministry of Security shall perform the duties associated with that of the Ministry of Homeland Security and complete the job of safeguarding the interests of the alliance delegates and dealing with any safeguarding issues whenever necessary.

MINISTRY OF STATISTICAL AFFAIRS

The Ministry of Statistical Affairs is one of the most critical ministries needed for the alliance. The primary purpose of this ministry shall be the collection of statistical data whenever necessary and releasing survey reports. In addition, the Ministry of Statistical Affairs shall carry out the Positivity Surveys for the member-nations and other surveys required from time to time.

MINISTRY OF INTERNATIONAL COOPERATION

With the expansion of diplomatic affairs and cooperation with other inter-micronational organizations, there has been an essential need for the Ministry of International Cooperation. The ministry shall be responsible for planning cooperative programs, talks, and summits with other organizations. The Minister shall also act as a goodwill ambassador and be the chief representative of the Cupertino Alliance to these organizations.

Plans and Programs

Discord Server Organization

The CA discord server is the main forum for all conversations, collaborations, business, programs, etc., of the Cupertino Alliance. With this much activity across a broad spectrum of topics, it is critical that proper organization, categorization, and regular archiving are maintained to keep the server organized. The discord server is a representation of our organization to observers and applicants. When many individuals first join the CA discord server, it's common that they spend the better part of an afternoon just familiarizing themselves with the categories and channels. This should not be necessary. There are many inactive channels and even categories that should be repurposed, combined, or archived to better organize the server in a streamlined and intuitive way. We intend to provide a clear plan to restructure the server to aid our activities and better represent our organization.

Cupertino Alliance Digital Library

The CA is in desperate need of an organized library for legislation. We plan to create a new system where files are placed in a central location in chronological order, and tags will be used to aid in keeping track of which acts are related. This will allow any member to quickly and easily retrieve all legislation pertaining to a specific topic or simply search for a particular piece of legislation.

The Cupertino Alliance Games

To promote cooperation, integration, and activities among the member nations of the Alliance, the **Cupertino Alliance Games** shall be an annual series of games, both physical and online, for the member-nations of the

alliance. Highly influenced by the Commonwealth Games, it shall promote the spirit of brotherhood and friendship between the members and contribute to the principal ideologies and objectives behind the organization. It will be hosted jointly by the alliance and one or more member nations to help bring activity and fun for all.

The Cupertino Alliance Cultural Fest and Virtual Summit

Culture is one of the most evitable parts of our micronations. A united cultural festival would provide an excellent platform for displaying our member nations' unique culture and tradition. A week-long **Cupertino Alliance Cultural Festival** that concludes with a virtual summit shall be a wonderful activity in the alliance. There shall be various unique planned programs during the festival, including culinary and language exchanges.

Food is unique to all parts of the world, and our micronations are a clear example of how unique our food culture could be for the linguistic culture. Cupertino Alliance is home to many native language speakers, including English, Chinese, Korean, Hindi, Norwegian, Welsh, Romanian, and Thai. A language exchange program for the members would be great as we members get a fair chance to promote our mother tongue and learn one another's language.

Administration Grievance System

We are not perfect. As much as we try to do our best, mistakes will happen. Because of this, we want to pioneer a new system through which delegates can anonymously submit grievances and complaints about the administration. As we say, "*A campaign for all*," we must look to satisfy the grievances of all. A secure form will be used for anonymous submission, and the grievance will be received by the Chair, Lt. Chair, and Superior Judge. The grievance will be understood, and action will be taken to right the issue.

Diplomacy

Diplomacy is one of the key policies that the Roy-Mullins Campaign shall focus on if elected. Considering our Chair-candidate Dhruvajyoti Roy's close and long-standing relationships with most of the reputed inter-micronational organizations, his association with the founders and leaders of those organizations would surely benefit the alliance in fulfilling its desire to interact, cooperate and expand its diplomatic outreaches.

"Alone we can do so little; together we can do so much."

– Helen Keller

- **GRAND UNIFIED MICRONATIONAL**

The Grand Unified Micronational is the oldest continuing micronational organization, established in 2009, and is undoubtedly one of the most professional inter-micronational organizations. Cupertino Alliance's long-standing association with the GUM is well known. Since the establishment of talks for better cooperation under the able administration of former GUM Chair Jack Dean & CA Chair Logan Ross and conducting joint programs, the relationship between the two organizations has prospered immensely. Our campaign believes in the continuation of the existing relations in a healthy manner. Considering the common members in the two organizations, it would be possible to hold outstanding cooperative programs, talks, summits, and conclaves between the organizations.

- **CONFERENCE OF SANTIAGO**

The Conference of Santiago is the leading micronational organization in the Brazilian sector ever since its establishment in 2020 under the

leadership and guidance of Karno-Ruthenian Emperor Oscar I. The Conference of Santiago is a true example of how they have helped shape a community based on professional and secessionist micronations and not like the derivative and simulationist micronations in the Lusophone sector. Considering Mr. Roy's association with the Conference in his capacity as the Chairman of the Association of South Asian Micronations, it would be great for the Alliance and the Conference to have established cooperative relations based on the common principles of peace, friendship, and cooperation for the mutual benefit of the members. A prosperous relationship with the Conference would surely help the alliance to have a globally positive image and contribute to members from all parts of the world joining the Cupertino Alliance.

- **MICROFRANCOPHONIE**

Established in 2015, the MicroFrancophonie is a professional micronational organization for micronations within the French-speaking community. Considering the influence of the French language in micronational culture and French-speaking nations in the Alliance, it would be great to cooperate with the MicroFrancophonie to prosper and cooperate based on a linguistically unique culture and heritage.

- **ASSOCIATION OF SOUTH ASIAN MICRONATIONS**

Founded in August 2020 by Dhrubajyoti Roy, The ASAM is a successful regional organization, which focuses on building a solid South Asian micronational community. South Asia has always lacked knowledge on micronations and micronationalism. However, the organization has

quite proven itself in uniting several nations from the sector under the common threads.

- **ASIA-PACIFIC ALLIANCE**

Considering the importance of the rise of Asian micronationalism, the Asia-Pacific Alliance is yet another leading micronational organization based on members within the Asia-Pacific community. The establishment of a cooperative and friendly relationship between the CA and the ASPAA would surely benefit the common members of the organizations. Dhrubajyoti Roy's important position as the Vice-Secretary-General of the ASPAA shall undoubtedly play a valuable role in the process of cooperation between our two organizations.

Together, we can go far. Voting for the Roy-Mullins administration in the Cupertino Alliance will ensure that the alliance will continue to grow to its full potential. It is our goal that our policies and wealth of experience will support our current programs and provide a straight path for new ones. A vote for Roy-Mullins is a vote for an efficient and prosperous alliance!

A Campaign for All
